Why is This Important to Us?

- ◆ A growing awareness of our youth needing an established organization, “Ambassadors In Christ,” to help them grow and establish their faith and share that faith with youth in their community.
- ◆ Many of our congregations with few youth need the opportunity to connect with youth of other congregations on a regular basis for mutual encouragement in their faith as well as fun, fellowship and direction.

Assets on Which to Build

- ◆ Circuit organizations binding together to direct and provide for the needs of our youth.
- ◆ There are numerous youths that are adults now that could provide leadership and training along with pastors and laymen.
- ◆ Active and established youth groups who could reach out to smaller congregations to help train and inspire youth leaders.

Other Discussion of Significance

- ◆ Adults need to be involved.
- ◆ Service events in Mexico, New Orleans to bond youth in fellowship and faith.
- ◆ Weekends spent by participating with other youth in activities and afterwards inviting them to a non-threatening Bible study.

Recommendations

- ◆ District to find ways to support and help to establish an “On-going Ambassadors for Christ.”
- ◆ Circuits would adopt a plan to establish youth outreach and evangelism.
- ◆ Using the same principles of O AFC regarding evangelism, but establishing methods to train and inspire our youth in local congregations.
