

Our Mission

The Kansas District will provide a ministry at each state/city college/university in Kansas through peer ministry training and computer technology and at least part-time presence of a Kansas campus missionary.

The District will also support the ministries of its congregations to community and private colleges/universities in their local communities.

There are more than 16 million college students in the United States of America. Of approximately 9 million traditional-age students (19-25) coming to 3,700 campuses in the U.S., many have no personal relationships with the Lord or with His church. Even students who have grown up in Christian families often are disconnected from the church by the time they reach college and university campuses. This reality highlights the vital importance of campus mission. Connecting students, both Christians and those who do not yet know Christ's love, to ministries where they can receive acceptance, spiritual care, Christian fellowship and opportunities for exploring the Christian faith is a life-saving mission!
