

FAMILY MINISTRY BASICS WORKSHOPS

Coming this Fall!

The Kansas District has identified **family ministry** as a critical target for more than a decade. The primary goal in family ministry continues to be strengthening congregations to integrate the Christian faith into the lives of God's people in a changing world. This goal is, in part, being accomplished through the 'Family Life Academy.'

The Family Life Committee of the Kansas District now presents a new way to equip leaders to integrate family ministry practices into local congregations called **Family Ministry Basics**.
